

# SUB canto SMART

## The smart subwoofer for the lighting track

### Noble bass in the lighting track

Simple and straightforward design - can be perfectly integrated into the look of the lighting structure.

Its extraordinary efficiency ensures that large areas are supplied with pleasant low frequencies. Any number of subwoofers can be used. The volume of each individual subwoofer can also be adjusted by remote control during operation. Thanks to the wireless technology, no cabling is required and the subwoofer can be installed in no time at all ...even during ongoing business operations!

## Technical Data

**Application** Active subwoofer for the lighting track

### Design

Colours ● ○  
Dimensions 150 x 150 x 475 mm  
Material housing Wood

### Sound

Principle Bass reflex  
Output power 50/100 W RMS  
Equipment Woofer driver  
Efficiency 85.5 dB  
Frequency response 40...185 Hz  
Radio frequency 1.9 GHz n-DECT  
Transmitter SMARTplayer

### Installation

Weight 3.5 kg  
Power supply AC 100-240 V; 50/60 Hz; 0.5 A  
Power consumption Max. 60 W  
Connections Multi-adaptor for lighting tracking tracks  
Compatible with Nordic Aluminium, Eutrac®, Global, Nuco, Staff, Ivela, Zumtobel etc.
