

CONO cubo

The elegant ceiling loudspeaker

Straight, purist design for ceiling mounting

The CONO cubo ceiling loudspeaker can be fixed directly to the ceiling and offers a minimalist look in high-quality anodised aluminium (CONO cubo S) and glass fibre-reinforced plastic. The reduced dimensions of 105 mm x 105 mm (CONO cubo S) and 110 mm x 110 mm make it a small powerhouse that complements the ceiling appearance with its object language, especially on ceilings with exposed concrete. The CONO cubo can also be installed on the wall. We recommend a mounting height of at least 2 meters. The ceiling loudspeaker is indispensable for correct playback in Dolby Atmos mode, especially to complement surround applications.
