

PRO atrio

Perfect sound for large areas

The powerful multi-mount satellite sound system for large and open areas

The PRO atrio creates a perfect sound sphere across almost all frequency ranges with just a single speaker. In principle, a single PRO atrio replaces an arrangement of several speakers (cluster). The timeless design of the spherical loudspeaker also helps to simplify integration into existing architectures. With the PRO atrio as a suspended version, even atriums, halls and high corridors can be evenly filled with sound of the highest quality.

Technical Data

Application

2-way satellite speaker

Design

Colours	● ○
Dimensions	Ø 235 mm x 385 mm
Material housing	Aluminum / carbon-fibre-reinforced ABS

Sound

Principle	2-way 360°
Woofer Chassis	2 x 110 mm Reversed Aluminum Cone
Tweeter Chassis	26 mm Dome Tweeter
Nominal power	260 W / 400 W
Impedance	8 Ω
Efficiency	84 dB
Max. SPL	111 dB
Frequency response	80 – 21.000 Hz

Installation

Weight	5,2 kg
Connections	Speakon
